

Compare Cheata Bikes to other motor bicycles:

**CHEATA BIKES**

2-CYCLE	<b>CHEATA BIKES</b> 4-CYCLE	ELECTRIC
Noisy & Rough	Pleasing Sound & Smooth	Quiet & Smooth
Mix Gas & Oil Messy & Risky	Gas Only Easy	6-8 Hours Charge Time Long Wait
Smokey	Virtually Smoke Free	—
100 Miles per Gallon	150 Miles per Gallon	10-15 Mile Range on (1) charge
25 MPH	30 MPH	15-25 MPH
Less Reliable Hard Starting	Excellent Reliability Easy Starting	Battery & Motor Expensive to Replace
Requires Clutch	Automatic	Automatic
\$1,295+	\$1,595+	\$1,900+

## Why Cheata Bikes?

Cheata Bikes are equipped with the highest quality 49cc, 4-cycle engines. The engines are street legal in most states (check your local laws for legalities).

### ADVANTAGES OF THE 4-CYCLE ENGINE...

*A 4-cycle engine requires no gas and oil mix.* This means you just fill the tank with gas and go! The Cheata Bike is fuel-efficient and emission compliant in most states. It is also fully automatic! You can even choose to pedal your bike and when you want to engage your engine, just give it gas and go! To power off, simply release throttle and push the kill switch. Cheata Bikes use engine-mounting dampers to further reduce vibration. Mobil One synthetic oil is the exclusive oil of the Cheata Bike. There's no better oil available.

### WHAT'S WRONG WITH A 2-CYCLE ENGINE?

*Beware of 2-cycle motors because they are inefficient, noisy, and have greater vibration and heat.* They also require the operator to use a clutch, mix gas and oil at every fill-up and are not emission compliant in most states. In addition, the exhaust produces a lot

of smoke and smell. 2-cycle engines also require constant maintenance and tuning.

### HOW DOES AN ELECTRIC BIKE COMPARE?

There is no comparison! *Electric bikes are more expensive and don't have the sound or feel of the Cheata Bike.* Your ride-time is limited by battery charge (sometimes less than 3.5 hours.) Recharging can take up to 8-10 hours. Who needs to wait to ride? Battery replacement is expensive and electric bikes just don't stand up to the elements like a Cheata Bike.

### OTHER CHEATA BIKE ADVANTAGES...

*Cheata Bikes are built by hand and use high-end bicycle parts.* Most owners are able to modify and maintain their own bicycles with ease. Compared to the moped, for example, if you need a brake job, you will need to take it into a repair shop. Cheata Bikes can be taken to nearly any local bicycle shop or our retail facility. Brakes run around \$10 and install in less than 10 minutes. Easy maintenance equals years of riding fun!

**Motorized bikes are legal in almost all states. Most laws stipulate that any motorized vehicle under 50cc is legal to operate without a license, registration, or insurance.**

**DISCLAIMER:** Operating this motorized bicycle involves risk of bodily injury. Buyer accepts responsibility for any and all vehicle operation that may lead to personal injury, economic loss, social distress, other losses, costs and damages. Cheata Bikes is not responsible for injuries and/or damages resulting from operating this motorized bicycle or bicycle engine kit. This kit is not recommended for use by persons under 16 years of age. Obey all traffic regulations. Always wear a helmet while riding. Remember that you are riding a motorized bicycle and other traffic may not be able to see you. Never operate your motorized bicycle on a pedestrian through way or sidewalk while the engine is running. Never operate our motorized bicycle in an unsafe manner. Check local and state laws before riding on streets.
